

CLEO for students and parents

CLEO

2026-10-09

Help seniors build confidence with technology

At CLEO, students support seniors as they practice everyday device and communication skills. Volunteers learn to explain clearly, listen patiently, and work as a team. Chapters agree on their schedules and supervision arrangements with their hosts and advisors.

How to join

1. Ask the chapter leader for the chapter's public registration link.
2. Register using accurate information and read the Volunteer Handbook.
3. Complete the required consent or waiver. For a minor, the guardian uses their own private signing link.
4. Complete volunteer training and check remaining requirements before serving.

Registration alone does not clear someone to volunteer. Ordinary volunteers do not need the CLEO leadership Slack account used by officers and advisors.

What volunteers do

Help participants practice skills such as navigating a device, making calls, writing messages, joining video conversations, and finding information. Keep participants in control of their devices and follow CLEO's boundaries around sensitive information and tasks outside the volunteer role.

The chapter records completed attendance and hours. Check your school's or another recipient's requirements for accepting service credit; participation does not guarantee a particular award or admission outcome.

Your chapter

Chapter / school: [name]

Leader and contact: [details]

Adult advisor / supervision contact: [details]

Typical venue and schedule: [details]

Public registration link: [paste the chapter link]

[Volunteer Handbook](#) · [Chapter guides](#) · [Report a safety concern](#)

For the chapter: complete the fields before sharing. Never replace the public registration link with an individual's private signing or status link. This handout is not a consent form.
